

From Our Gardens to Yours – Plant Sale 2019 – Annuals

	<p>Coleus – Annual / Shade / Various heights –</p> <p>Coleus come in many different colors. For bushier, fuller plants, keep the growing tips pinched. To extend the lush color into fall, remove any stray flower spikes that emerge -- they take energy away from maintaining the gorgeous foliage, and the flowers are insignificant. If growing in the garden, sow about 12 inches apart. If growing indoors for houseplants, sow at any time, placing the young plants in a well-lit window.</p>
	<p>Elephant Ear Bulbs – Annual / Full Sun / 4 – 5 feet</p> <p>Can be left in ground if planted on protected southern exposure.</p>
	<p>Wandering Jew – Annual/House Plant / 6-8 inches –</p> <p>Wandering Jew needs bright light to maintain its color. It will spread easily and root where it touches the ground. It should be kept slightly moist. It works well as an annual in a hanging basket. Cuttings can be taken in the fall to pot up for a house plant.</p>

Virginia Cooperative Extension programs and employment are open to all, regardless of age, color, disability, gender, gender identity, gender expression, national origin, political affiliation, race, religion, sexual orientation, genetic information, veteran status, or any other basis protected by law.
